Professional Summary

Software engineer with 2 years of experience in developing user interfaces, testing, and debugging, improving, and adding features for web applications. My experience has provided me with the technical skills and necessary confidence to successfully drive technical tasks. I consider myself as a fast learner of new topics and passionate about technology and its magic.

Technical Skills

- **Languages:** JavaScript, HTML, CSS
- **frameworks**: Node.js, React, Redux, Express.js, MongoDB, REST APIs, jQuery, Bootstrap
- **Software/Tools**: Android Studio, Adobe Photoshop, MySQL, GitHub, npm, Postman, Microsoft Project
- **Libraries/packages:** lodash, moment, aws-sdk, axios, Mocha, Jasmine, Jest and Enzyme ...
- **Experience**: Java, Python, Heroku, Firebase, AWS.
- **Operation Systems:** Windows, Ubuntu Linux, MacOS.

Work Experience

Symbolic Frameworks **- Software Engineer** - Seattle, WA - October 2018 to current date
- Add features and components to the applications using HTML, CSS, Sass, JavaScript, and jQuery
- Test the applications and resolve all the possible bugs
- Maintainable the applications and write code using different languages, platforms, frameworks

PROJECTS

Floop Edu| https://www.floopedu.com
- Full-stack agile software development project.
- Contributed to building features that allow teachers to submit assignments on behalf of students.
- Technologies used: React, Redux, Node.js, HTML5, CSS3, Firebase, GitHub, npm.

Design engine | work project
- This is a tool that was initially developed to replace AutoCAD for Henrybuilt. This project was a relatively large project that involved a lot of front and back end programming to test, debug, and add new features.

Stories | work project
- A project management tool, written in React, that helps to manage the tasks, from assigning to planning and completing a task.
- In this project I added multiple components, like attachments to upload files, comments to leave a comment for each task and ...

Education

- **Bachelor of Applied Science (BAS) in Application Development**

North Seattle College, Seattle, WA- Sep 2019 - June 2021
Focus Areas: Computer Science fundamentals, Data Structures and Algorithms, Web Application Development with HTML, CSS, JavaScript and PHP, Mobile Application Development with Java, Relational Databases with MySQL, Cloud Computing with Azure focus and AWS familiarity, and Data Science.

- **Bachelor of Industrial Management**

 Azad University, Tehran, Iran - Sep 2004- June 2008
Focus Areas: Quality Assurance, Accounting, Entrepreneurship, Managerial Science, Marketing, Materials Handling and Plant Layout, Operations and Production Management, System Engineering.
